

Deb Guerrero  
Cambria Miniature Bull Terriers

I was California born and raised, now reside in Washington state with my husband Alex. I have many passions, hobbies, and a love for animals. I have been employed for twenty years in the Veterinary field, as a Medical Assistant, and local Military Morale Welfare and Recreation Planner. During my time working in the veterinary field, I met my first bull terrier and instantly knew I had a true passion for the breed. My love for the miniature bull terrier started in 1999, little did I know this would lead me into an obsession of showing dogs. Cambria Kennels and my breeding program have produced many champions that have been recognized at MBTCA National Specialties, including

prestigious BOB win at Westminster Kennel Club, as breeder/owner handled.

My most arduous and notable accomplishment was being challenged to become an AKC Judge for Miniature Bull Terriers and Bull Terriers.

During my 22 years as a MBTCA member, I have held the following Board of Director positions:

First Vice President, Recording Secretary, Member at Large, and Health Chairperson.

While holding those positions, my passion to be a great communicator with people was and will always be my main goal. I strive to be professional, a great listener, friendly, honest, and have commitment to the MBTCA and its members. I am also a dedicated breed mentor and health advocate. I'm always available to chat about health, breeding or other topics.

One of my many goals is to sustain the future of the miniature bull terrier, I will propose the MBTCA organize seminars on breed related health issues and genetics, encouraging as many members as possible to attend to educate and inform. Many tools are available that can be utilized to promote the well-being of our breed, for example, a dedicated health section in the ALB. In my opinion, knowledge is our best tool for success.

The MBTCA is a great club to be a part of and with a vast outreach program, the MBTCA can only improve and expand its membership. I believe to be successful we need to include honesty, integrity, and loyalty, along with the sharing of club information freely to benefit the organization as a whole. A breed club should be a place where people who share a common love of the Miniature Bull Terrier, can band together in the best interests of our breed, gain friendships, gather a wealth of knowledge; while leaving the politics, bickering, and competition outside the doors. A breed club is only as good as its members, but even a handful of people wanting a successful club can make it work.

I would like your vote for First Vice President, MBTCA Board. Please do not hesitate to contact me.
